

# MOISTURE MITIGATION

KEY RESIN COMPANY

Key Resin Moisture Mitigation systems help control vapor transmission rates, preventing moisture related failures, such as, loss of adhesion, warping, peeling, poor appearance, and efflorescence deposits or bubbling. Overlay options are available in flake, quartz and epoxy topcoats.

## ADVANTAGES

- High wear resistance
- Low odor application
- Impact resistance
- Abrasion resistance
- Options for decorative systems, including flakes and quartz

## TYPICAL USES

- Industrial & manufacturing
- Chemical processing
- Food and beverage plants
- Healthcare & pharmaceutical
- Education, government and institutions
- Commercial & hospitality

Key Resin Company provides this color guide for preliminary color selection only. Please refer to a physical sample prior to making a final selection. Contact your local Key Resin Representative for assistance or contact the main office.
